THE WHITECHAPPL PIEND AGAIN. An attempted murder in the Whitechapel district, supposed to be by the fiend who has committed the former crimes, upsets the calculations of the police as to the guilt of their present prisoner, Dr. Twomblety, and throws the women of London into a fever of alarm, The intended victim in this case escaped from the assassin's hands with her life and may recover. This is the butcher's first failure, if it was really his act, and there is good hope that the full descript on of the ruffian obtained from the woman may at last lead to his detection.

The details off the murderous assault are given in our special cable despatch. It will be noticed that the men who saw the wouldbe assessin as he fied after the alarm was raised describe him as short and stout, while the woman says he was tall. Both accounts agree that he wore a light mustache. It is to be hoped that the mystery may now be unravelled. At all events, the description given of the man by his intended victim, who would have been the tenth in number had his assault been fatal, may put a stop to his horrible pursuit for a time at least, even if the blundering London police do not succeed in running

POWDERLY'S VICTORY.

The great labor organization is to be congratulated on the wise action of the General Assembly at its meeting at Indianapolis. General Master Workman Powderly has been successful in all he has attempted, the constitution has been amended in accordance with his suggestions and the local troubles which have threatened to disrupt the order have been happily put in the way of settlement. Mr. Powdenty has pursued a dignified, conservative course throughout in a very delicate and complicated situation. Where radical differences existed a fair compromise has been reached. and the Knights of Labor cannot fail to be strengthened as an organization by the new

It would have been a misfortune for the working people of the country if this greatassociation had been disrupted and destroyed by internal dissensions. As it is, the quarrels that have arisen, now that they have been disposed of, will only serve to make the Order stronger, wiser and more harmonious in the future. Let it continne to be controlled by honest leaders and guided by conservative counsels, and it will be of more value than ever to the cause of labor all over the country.

MILLINER AND MILLIONAIRE.

The suit for damages in a breach of promise case now being tried at Beaver, Pa., is interesting as well as instructive. The parties to the suit are a milliner and a millionaire. The millionaire is Mr. HENRY C. Fay, and he has got into his present trouble "all for love of ELIZA." Mrs. ELIZA A. HIBBARD wants him to apply a \$100,000 plaster to her wounded affections, he having, as she claims, lacerated her heart by failing to keep his pledge to reieve her widowhood and place her at the head of the Fay household.

The fair and more than forty widow gave a truching history of Far's advances in lovemaking. He commenced by sitting by her side on the grass at a picnic; but the wily widow pradently called a mature matron to come and sit between them. Then, as President of the Town Council, Mr. Fay had a crosswalk built to the widow's store. Over this walk the gallant widower came to woo, and many were the endearing words he breathed in the widow's ear. The crisis came over a game of checkers, when he took both the plump Hibbard hands in his legislators of the Cigarmakers' International Union have been elected as Representatives in the Legislatores of their respective States. They are F. H. Gill. of Grand Rapids, Mich.; W. H. McKinstry, of Muskegon, Mich., and Adolph hands in his came to woo, and many were the endearing own, put his face close to hers and whispered ; "You will take me to be yours for life." Then the widow murmured the reply. " I expact so," and the preparations for the wed-

COL. LAMONT'S BABY.

Col. LAMONT's wife has presented him with a brand-new baby. This time it is a boy, and it is said that the Washington gossips have already named it DANIEL GROVES LAMONT. But why not put the GROVER first? It has been a lucky name-at least until

very recently-and it will distinguish the younger LAMONT from the elder in future years without the awkward addition of the

Master Lamont will not enjoy a long Washington experience. He will not remain there long enough to be in danger of the disease of the "big head," and will feel no regret at taking his departure, provided his bottle is well filled. Yet his experience at the seat of Government will be a story to be told in after life to his own little DANIEL GROVERS, and his place of birth will probably make him envied by the companions of his schoolboy days.

We offer our congratulations to the Colonel and his wife, and may their Washington baby be a blessing to them wherever their future lot may be cast.

Col. O. C. Santn. of Omaha, is a sensible as well as a brave man. He went to Elgin, Ill., last Monday, with the intention of killing Dr. A. M. Stong, a prominent dentist, on sufficient provocation of a family nature, as a confession written by Mrs. Sabin proves. Finding the dentist a miserable poltroon, the Colonel simply used his revolver to compel him to leave the house and enter a carriage with with him. Driving to a convenient spot, Col. Sann threw away his weapon, to escape temptation, and then belabored the dentist in a manner that will lay him up for some time and disfigure him for life.

The Most Wonderful Remedy of the Age-Brief History of his Discovery.

Dr. Greens, the great nerve specialist of 35 West 14th st., New York, gave the cicsing lecture of his course in Chickering Hail last evening. After the lecture, which was attended by an immense audience, the doctor was seen by our reporter, and a few of the facts clicited in regard to his great medical discovery, known as Dr. Grsene's Nervura Nerve Tonic, are here set forth. We believe it a matter of interest and importance to the psople, as no discovery in any science can possibly be of more value and necessity to the well-being of the comnors value and necessity to the well-being of the com-nunity than a remedy which will restore neath.

munity than a remedy which will restore neath.

We learn than this wonderful nerve cure has been in
use by Dr. Greene for years, and that it is only lately
that its sale has been allowed to become general in the
drug stores. Dr. Greene is a specialist in nervous and
chronic diseases, and is so well known throughout the country that patients come to him for advice and treat-ment from all over the United States. He can be consuited absolutely free, personally or by letter, at his office, 35 West 14th st., New York, and his immense professional practice has given him the widest and mor thorough experience of the marrellous curative powers of this remarkable remedy, which he discovered.

He has for years been urged by patients cured by its use to place this valuable medicine in the drug stores, in order that it might be within easy reach of all who needed its satoutshingly boneficial effects. But Dr. Greene, having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large a practice among cases of present having so large and present ha

Greens, having so large a practice among cases of ner-yous diseases, felt that his remedy was already doing great good among the sick and suffering, and it was only within a year or so that he was finally induced to allow Druggists Throughout the Country

to keep it for sale. He decided to do this for two reasons: First, because he knew it to be the very best nerve remedy ever discovered; and, secondly, he was convinced that by allowing it to be sold in every drug store, thousands upon thousands could be benefited by its use, because it could be readily procured, and its low price of one dollar per bottle placed it within the reach of all, rich and poor

Another consideration was the fact that nervous dis eases have become so common that there was an actual public demand for a standard nerve remedy—a remedy that certainly and positively cures these waskening and exhausting nervous affections. Dr. Greene's Nervura Nerve Fonic is just such a remedy, always sure and certain in its curative effects, and any sufferer has only to use it to be convinced of this fact.

Never before in the nistory of medicine has any remedy

had so brilliant and astonishing success. The demand among the people for this wonderful nerve remedy is simply enormous, and the calls of druggists for it in large quantities necessitated the establishment of one of the largest medicine manufactories in the world. At resent the remedy is kept in all drug stores.

A word in regard to the remedy isself. It may be used

Thomas Verren Unnecountably Missing

THOMAS VERREN, missing since Oct. 22—Thomas Verren, of Brooklyn, 55 years old, height 5 feet 6, slight build, light complexion, gray beard and mustache, quite baild. Any person having knowledge of his whereabouts will please notify William Bruogton, 206 Broadway, New York. The missing man thus advertised is a lawyer who was once quite well known in New York, but of

late years has been little seen among his friends. His office was at 52 New street. He lived hap pily with his wife and her mother in a neat frame cottage at 304 Fifteenth street, Brooklyn. Mr. Verren owned property in the vicinity where

he lived and moved over there toree years ago. He had been troubled with malaria and thought the high ground would help him.
Sept. 2 he received a telegram from Harlem saying that his brother, Henry Verren, had died that

norning.

The shock was so great that he was fairly over-whelmed and was unable to move for over naif an Mrs. Verren went to New York and returned in the evening with her nephew, who was a medical student. In charge of the nephew Mr. Verren went to

In charge of the nephew Mr. Verren went to New York the next day to view the remains of nis brother. He returned that night, and his wife saw that he was still much moved.

The love between the brothers was something unusual. The brother who had died was several years younger than the missing man, and they had always been together since children.

Mr. Verren attended to important business the following day, and on Wednesday attended his brother's funeral.

rollowing day, and on Wednesday attended his brother's funeral.

He was more or less ill for two weeks after the funeral, but apparently recovered and attended to his duties in New York every day.

The day before he disappeared, Oct. 21, he stayed at nome all day and seemed cheerful and contented. In the alternoon, contrary to his usual custom, he took a short map.

When he awoke Mrs. Verren noticed that his face was greatly fushed. She spoke about it and he passed it off lightly, saying that it was merely the effect of his msp.

He ate supper, and during the evening carried on a pleasant conversation and retired at about 10 o'clock.

on a pleasant conversation and retired at about to o'clock.

He slept well during the night, arose about 7 o'clock Monday morning, and after breakfast left for business about 8.30—his usual time.

He kissed his wife, with a cheerful "Goodby," and walked to Sixth avenue. That is the last that Mrs. Verren has seen of him, but he attended to his business that say and left his office about 2 o'clock in the afternoon.

It is believed that he wandered away while in an irresponsible condition and it is feared that he may have perished. The only known explanation of his aberration, if such it was, would be that the grief and shock over his brother's death once more overwhelmed him.

Thomas Verren, rector of the French church, Du Saint Esprit, who died about sixteen years ago. He had no children.

He was born in this city, and educated in the old Trinity School in Varick street. He was admitted to the bar in 1859, practised in this city, was married in 1873 and some years later, having made enough money to care for numself and wife, he retured from really active life.

Mr. Verten, at the time he disappeared, wore a biack beaver, frock overcoat, dark striped tronsers and a cost and vest of cark mixed material. The vest was cut low, displaying a turndown color and black slik bow. He wore long French call-skin boots.

proudly. In disposition, he seemed cold, but really possessed one of the kindest of hearts. His wife, who belongs to one of the oldest French families, said of him this morning: "I can look back and say that he was one of the best men

ing. "ile was always kind and warm-hearted, and never denied me anything. He was charital and was pleased to assist me in anything."

HELPING THE INSURGENTS.

Hayti's Consul Could Not Prevent An other Cargo of Remingtons Going. Ebenezer D. Clyde was destined ultimately for the inturpents in Hayti, the customs authorities here could not stop them as, technically, taey were lawfully consigned to another port.

This consignment, added to that of the Saginaw, gives fourteen rides and ammunition for each man, woman and child in Monte Christi.

T. Guilband and young Dectjen, passengers on the Clyde, are known to be of families who side with the rebes. Guileand is French, and obtained admission to a Paris law school through the influence of Haytian Minister Preston.

Sold Beer to a Four-Year-Old. Saloon-Keeper Jacob Sest, of 108 East Houston street, was held at Essex Market Court to-day for seiling a pint of beer to four-year-old Nelly Den-niger, of 93 E-at Houston street. A passing citi-sen laid the complaint.

James E. Birdsell, Eugene Rosen and Prederick Mangel were held to-day at the Yorkville Court on a charge of assault on Sophia Hofendorf, servant for W.A. De Long, of 120 West Sinety-third street.

They Will Pull Out of The Harlem Demo-At the meeting of the Harlem Democratic Club to-night, there may be a wholesale resignation of one hundred and fifty or more of its members, who propose forming another Democratic Club in

that it may be deferred till the next meeting. This action was predicted by THE EVEN World if the Club should indorse Abram S. Hewit's candidacy for the Mayoralty. There are known to be over one hundred and fity Tammany Hall men and Independent Demo-

crats interested in this secession from the Harlem Club, and the signatures of more than fifty have already been signed to a document resigning membership in the organization. Among them are Mayor-elect Grant, Joseph L! O'Donobue, Fire Commissioner Purroy, Deputy County Clerk Gilroy, Police Justice Andrew J.

White, Major John R. McNulty, Senators Ives and Cantor and many more leading Democrats.

Major McNully, who had much to do with making the present club a success, said of the proposed new club:

"It was not alone the indorsment of Mayor
Hewitt which brought about this result. The
Hailem Democratic Club was Democratic only in

name.

"There are Republicans in it—one man particularly who marched at the head of a battery in several Republican processions during the recent campaign. It was also a difficult think to secure the indorsement by the club of Gov. Bill'a nomination, and many of the members publicly boasted of their vote and work for Miller.

"Such things ought not to be tolerated in a Democratic club, and that is why we propose having one composed of simon-pure, dyed-m-the-wool Democrats.

ing one composed of simon-pure, dyed-m-the-wost Derhocrats.

"Another trouble with the present club is that it is not incorporated, and each individual member is liable for all its debts. Its club-house, too, is owned by a few men, the Twelfth Ward National Bank coterie, Edward P. Steers, Antonio Rasines and Charles W. Dayton, who have been running the organization by the bread and butter votes from the several city departments controlled by the County Democracy."

tion by the bread and butter voice from the several city departments controlled by the County Democracy."

"This difficulty arose when Sheriff Grant and Senator Ives were elected to membership.

"The coterie which was using the Club to advance its own interests opposed the election of any more political leaders, and it was only by the most determined efforts that Sheriff Grant was elected a member by a majority of 5 votes. Charley Dayton and the rest didn't want any more political leaders unless they led their way."

A site for the new Club-house has not yet been secured but there are several in view, and as soon as a Committee is appointed it will be instructed to secure retusals for their turchess.

One site is the corner of One hundred and Tweny-seventh street and Fifth avenue, another on the southeast corner of Madison avenue and One Hundred and Twenty-fourth street, and one has been offered on One Hundred and Twenty-fourth street, and one has been offered on One Hundred and Twenty-fourth street, and one has been offered on One Hundred and Twenty-fourth street, and one has been offered on One Hundred and Twenty-fourth street, between Sixth and Seventh avenues.

There will be plenty of money as well as much unadmiterated Democracy in the new club, and present indications point 12 a goodly subscription list, and eventually a good club-house in Harless. Joseph J. O'Dononne has inlimated that he can be called upon for \$10,000, Sheriff Grant thinks he has \$5,000 left from his campaign fund to be devoted to the Club's uses, and other wealthy members promise liberal donations. About \$25,000 has been actually promised so far.

Temporary quarters will probably be leased and occupied by the Club until its new club-noise is compile ted.

A name for the organization has not yet been determined on.

Stealing a Fireman's Clothing. John Perkinson, of 29 West Twenty-seventh street, and Frank Gallagher, of 427 East Nineteenth street, were held in \$1,000 ball each at the Tombs Police Court this morning. They grabbed \$50 worth of clothing from a van in which the household effects of Fireman Daniel Bonner were being moved from 305 Elm street.
